- Hugo
- TailwindCSS
- Netlify

Content Management

- Forestry
- CloudCannon
- NetlifyCMS

Analytics & Testing

- Google Analytics
- Cypress

PORTFOLIO

monicanorris.netlify.app/

SUMMARY

I am a Web Developer with a passion in creating responsive web applications fit for the modern day. My expertise lies in bringing life to designs and cultivating interactive experiences through implementation, testing, and user analysis for both sites and dynamic components.

EXPERIENCE

Neoteric Design — 2019 - Present

Web Developer

Adopted the JAMstack approach in creating high performing, scalable projects. Excelled in utilizing the Hugo static site generator to create a variety of web architectures. Decreased development time by integrating TailwindCSS framework for responsive styles. Consistently handled hosting and deployment with Netlify. Responsible for form generation and developing server-less functions. Tracked user interests and capsulated data within meaningful reports using Google Analytics.

Gorilla Group — 2019

Web Developer

Deepened expertise in React framework with the mindset of component driven development. Applied the Atomic design methodology to keep templates simple, clear, and easily reusable.

Mess Marketing — 2018 - 2019

Front-end Developer

Developed responsive web pages for client projects utilizing Vue.js and WordPress. Led quality assurance testing for all client projects. Worked with Director to understand, document and transition towards managing agency's DevOps toolchain and release process. Coordinated with project management team to manage content entry, developer workload and release.

EDUCATION

Bachelor's in Psychology, Loyola University of Chicago in 2016
